Adjustment · Ajuste · Réglage · Einstellung · Instellen · Regolazione · 調整 · 조질

Important!

You will need to adjust this product after installation is complete. **Make sure all your equipment is properly installed on the product before attempting adjustments.** This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

Increase Lift Strength

If the mounted weight is too heavy or this product does not stay up when raised, then you'll need to increase Lift Strength:

Decrease Lift Strength

If the mounted weight is too light or this product does not stay down when lowered, then you'll need to decrease Lift Strength:

14mm

1x 

! WARNING

Impact Hazard!

Moving Parts can Crush and Cut.

Raise to the full up position before removing equipment.

Always adjust the lift tension to accommodate applied load.

DO NOT add weight below minimum or above maximum weight capacities.

Failure to heed this warning may result in serious personal injury or property damage.

Las partes móviles pueden aplastar y cortar.

Antes de retirar el equipo, póngalo en la posición más elevada.

Ajuste siempre la tensión de elevación conforme a la carga aplicada.

NO cargue el carro por debajo de su capacidad mínima ni por encima de su capacidad máxima de peso.

Si no respeta esta advertencia, pueden producirse lesiones físicas graves y daños materiales.

Les parties en mouvement peuvent écraser et couper.

Levez l'équipement au maximum avant de l'enlever.

Régulez toujours la tension d'élevation afin de l'adapter à la charge appliquée.

NE chargez PAS le chariot en dessous de la charge minimale ou au-dessus de la charge maximale.

Il existe un risque de blessure corporelle ou d'endommagement matériel en cas de non respect de cet avertissement.

Bewegliche Teile können Quetschungen und Schnittverletzungen verursachen.

Vor dem Entfernen von Geräten sollte eine aufrechte Position sichergestellt werden.

Passen Sie die Lift-Spannung stets dem angebrachten Gewicht an.

Achten Sie stets darauf, die Werte für Mindest- und Höchstgewicht NICHT zu unter- bzw. überschreiten.

Die Missachtung dieser Warnung kann zu ernsthaften Verletzungen oder Sachschäden führen.

De bewegende delen kunnen kneuzingen en snijwonden veroorzaken.

Zet de apparatuur voor verwijdering volledig overeind.

Stel de liftspanning altijd af op de toegepaste belasting.

De minimum of de maximum belastingcapaciteit NIET overschrijden.

Als u deze instructie niet opvolgt, kan dat tot ernstig persoonlijk letsel en/of beschadiging van de apparatuur leiden.

Le parti mobili possono rompersi e tagliare.

Sollevarlo sino alla massima altezza prima di rimuovere l'apparecchiatura.

Regolare sempre la tensione di sollevamento per l'uso del carico applicato.

NON aggiungere peso né sotto la portata minima né sopra quella massima.

La mancata osservanza di questa avvertenza può causare infortuni gravi o danni alle cose.
